How can I upload a folder to OneDrive on my redmi note 10?

Copilot

To upload a folder to OneDrive on your Redmi Note 10, follow these steps:

1. **Install the OneDrive app**: If you haven't already, download and install the OneDrive app from the Google Play Store.

2. **Open the OneDrive app**: Launch the app and sign in with your Microsoft account.

3. **Navigate to the upload option**:

   - Tap the **"+"** icon at the top of the screen.
   - Select **"Upload"**.

4. **Select the folder**:

   - Navigate to the location of the folder you want to upload.
   - Tap and hold the folder to select it.

5. **Upload the folder**:

   - Once the folder is selected, tap **"Upload"** to start the process.

This will upload the entire folder and its contents to your OneDrive account.

If you encounter any issues, feel free to ask for more help! 😊

I tried selecting the folder but it only lets me upload files

Copilot

It sounds like the OneDrive app on your Redmi Note 10 might not support direct folder uploads. However, you can try a workaround:

1. **Compress the Folder**:

   - Use a file manager app to compress the folder into a ZIP file.
   - Most file manager apps have an option to compress or create a ZIP file.

2. **Upload the ZIP File**:

   - Open the OneDrive app.
   - Tap the **"+"** icon and select **"Upload"**.
   - Navigate to the location of the ZIP file and select it to upload.

3. **Extract the Folder on OneDrive**:

   - Once the ZIP file is uploaded, you can use the OneDrive web interface on a computer to extract the contents.

This method allows you to upload the entire folder as a single file. Let me know if this helps or if you need further assistance! 😊
