You

Based on this from my CV (attached screenshot) and my previous posts below, how can I write a LinkedIn post talking about the end of my time at BCFT and how it went (last week was my final week at the organisation):
Post 1 (at start of internship):

On Wednesday, I started a new role with Bradford Children and Families Trust working for them as an AI-Driven Social Impact Advocate intern.
I'm excited to start my new job! #newjob

Post 2 (midway review of internship):

Exciting Update from My Internship at BCFT!
I've been at Bradford Children and Families Trust for over a month now (since July 17), and I'm thoroughly enjoying my time here. A big thanks to everyone, especially James Hobson and Kirsten Trenell for their incredible support and guidance.
As my internship is ending soon on September 20th, I wanted to share some highlights:
- Engaged in extensive AI research and started developing some potential solutions.
- Gained a comprehensive overview of the organization, understanding how it operates and the crucial role of IT in a professional setting.
Overall, it's been a fantastic experience that I believe will greatly benefit my future endeavors.

Post 3 (end of internship):

🎉 *Internship Completion Announcement* 🎉
I'm thrilled to share that I've successfully completed a 10-week internship at the Bradford Children and Families Trust. Starting in July and wrapping up this past Friday, it was an incredible opportunity that I couldn't have asked for a better start to my career journey.
The organisation was incredibly welcoming and supportive throughout my time, and I'd like to give a special thanks to my manager, James Hobson, whose encouragement and praise were constant motivators. It was an absolute pleasure working under his leadership.
During my internship, I was fortunate to work on a range of exciting projects and build valuable skills, including:
📊 *Researching challenges in child social care faced by the Trust*
🤖 *Analyzing and implementing AI solutions to meet the Trust's needs*
🔍 *Developing and deploying an AI-powered document search for training guides*
🛠️ *Testing and troubleshooting AI systems for functionality and bugs*
📝 *Authoring a business report on social care challenges and AI mitigation strategies*
⏱️ *Building a Work Hours Calculator using Python and Microsoft Power Apps*
🎤 *Experimenting with document extraction and speech-to-text AI features (via Google Speech-to-Text APIs)*
🤝 *Creating an AI testing agent using Gemini and Hugging Face models*
📹 *Recording and editing a Microsoft SharePoint tutorial for internal use*
📅 *Managing internal meetings using advanced features in Microsoft Excel*
🚀 *Started a shared collaborative project using Microsoft Power Apps as the main solution*
This experience has truly enhanced my understanding of professional IT sectors and given me a deep insight into working in a dynamic environment. I'm incredibly grateful to everyone at Bradford Children and Families Trust, especially James Hobson, for making this journey so rewarding.
Here's to new beginnings and the exciting road ahead! 🌟
#internship #AITechnology #BradfordTrust #CareerGrowth #ProfessionalDevelopment

Post 4 (At start of part-time role):

🌟 *Thrilled to Announce My New Role!* 🌟

After a rewarding 10-week internship with Bradford Children and Families Trust, I'm excited to return in a part-time position as an IT Automations Officer.
This role marks a new chapter in my journey, allowing me to leverage skills in Microsoft Power Apps, SharePoint, AI Software Development, and more.
Special thanks to my manager James Hobson, and the stellar HR team —especially Angela Dyer and Allison Parratt — for their tireless efforts and unwavering support in making this transition smooth.
I look forward to contributing once again to the Trust's mission and working alongside such passionate professionals.
#NewBeginnings #BradfordChildrenAndFamiliesTrust #ITAutomations #Gratitude

---

I also want to indicate that I'm still looking for placements, following up from this post:

🔄 Still Seeking Industrial Placement Opportunities! 🔄
Hello LinkedIn Community,
Following up on my previous post, I am still actively looking for a year-long industrial placement starting in July or August 2025.
As a second-year Computer Science student at the University of Bradford, I have a passion for software development, data science, and AI research.
I am eager to bring my skills to a professional environment and gain hands-on experience.
If you or someone in your network is searching for a dedicated and enthusiastic intern, please feel free to reach out to me.
I would love to discuss potential opportunities and how I can contribute to your team.
Feel free to send me a DM on LinkedIn for any inquiries or recommendations.
Thank you for your continued support and consideration!
Best regards, Akhtar Hasan

Here's a polished LinkedIn post idea that ties in your achievements and gratitude with a professional yet personal tone:

🎉 Wrapping Up an Incredible Chapter at Bradford Children and Families Trust 🎉
Last week marked my final week as an IT Automations Officer at Bradford Children and Families Trust, a journey that started with a transformative internship in July 2024.
This experience has been nothing short of amazing, and I owe a huge thank you to the BCFT family for their unwavering support, encouragement, and trust in my abilities. Working under the exceptional leadership of James Hobson has been an inspiring and rewarding part of this journey—his guidance truly made a difference in shaping my career aspirations.
During my time at BCFT, I had the privilege to:
📊 Research and address challenges in child social care using AI solutions
🤖 Design, test, and implement innovative AI tools for the Trust
🛠️ Develop collaborative IT projects and custom tools like a Work Hours Calculator and AI-powered Document Search app
🎥 Create internal SharePoint tutorials and business reports on AI applications
These projects not only allowed me to make meaningful contributions but also helped me grow personally and professionally. They sparked my passion for leveraging technology to solve real-world problems and improving organizational efficiency.
I will always cherish the lessons learned, friendships formed, and skills acquired during my time here.
As I take the next steps in my journey, I'm also actively seeking industrial placement opportunities starting July 2025. If you know of any exciting opportunities in software development, data science, or AI, I'd love to connect!
Here's to embracing new adventures and building on the strong foundation BCFT has given me. 🚀
